

Canada India Energy Forum

April 15-17, 2009

Sheraton Central Hotel, 123 Queen St. W., Toronto, Canada

Mission

The increasing awareness over the past decade of climate change and the consequent need for sustainable development has put energy in the forefront as an issue that must be addressed by all countries. In this context, Canada India Foundation (CIF) is organizing an ambitious program that will bring together some of the most prominent players in the Canadian and Indian energy sectors to identify opportunities for energy cooperation.

Broad Goals:

- Provide a platform for the exchange of energy sector specific knowledge and information
- Present current developments in the energy sectors of Canada and India
- Promote mutual business opportunities for Canadian and Indian energy companies

Conference Topics

Wind Energy

Solar Energy

Biomass Energy

Biofuels

Oil & Gas

Clean Coal

Nuclear
Hydroelectric
